SC PERFORMANCE GOAL

2010 Goal:
By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:
By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Middle School of Pacolet continued to help students grow in all aspects of life. The 2008-09 school year was filled with opportunities for academic and social development, excitement, and hard work.

Faculty members completed a second year of working with the process known as Understanding by Design. Results from this project produced five eighth grade Junior Scholars and three seventh grade students recognized as Duke Tip Scholars. For the third consecutive year, 100% of our Algebra 1 students passed the EOC, and, in a first for Middle School of Pacolet, one 8th grade student was selected to attend the Spartanburg County Scholars Academy.

In the arts, we had numerous students win awards at both the local and state level. One of our students designed the state-winning Christmas card for Vulcan Materials. Our school was also well represented in region band competition and solo and ensemble competition.

Communication took on a new look as our Web site converted to eChalk. The weekly newsletter "Indian Headlines" earned distinction as an Award Winner by the South Carolina Association of Public Relations. Students directed and produced our morning news show—WMSP.

One of our greatest assets is our giving. Students collected over 700 canned-good items through our Fellowship of Christian Athletes for 2nd Presbyterian Food Bank. A school record was set for Relay for Life. Our school was recognized as the 3rd highest middle school in Spartanburg County, with over \$3700.00 collected. Another strength of MSP is the thirty-five parents who volunteer to help out at the school.

By receiving a grant from the State Department of Education, some of our young ladies are spending one week this summer in a nontraditional work setting camp. These seventeen girls will experience machine tool, electricity, construction, and welding at Daniel Morgan Technology Center.

A year of growth, excitement, and hard work—MSP met the challenge.
